FOREWORD

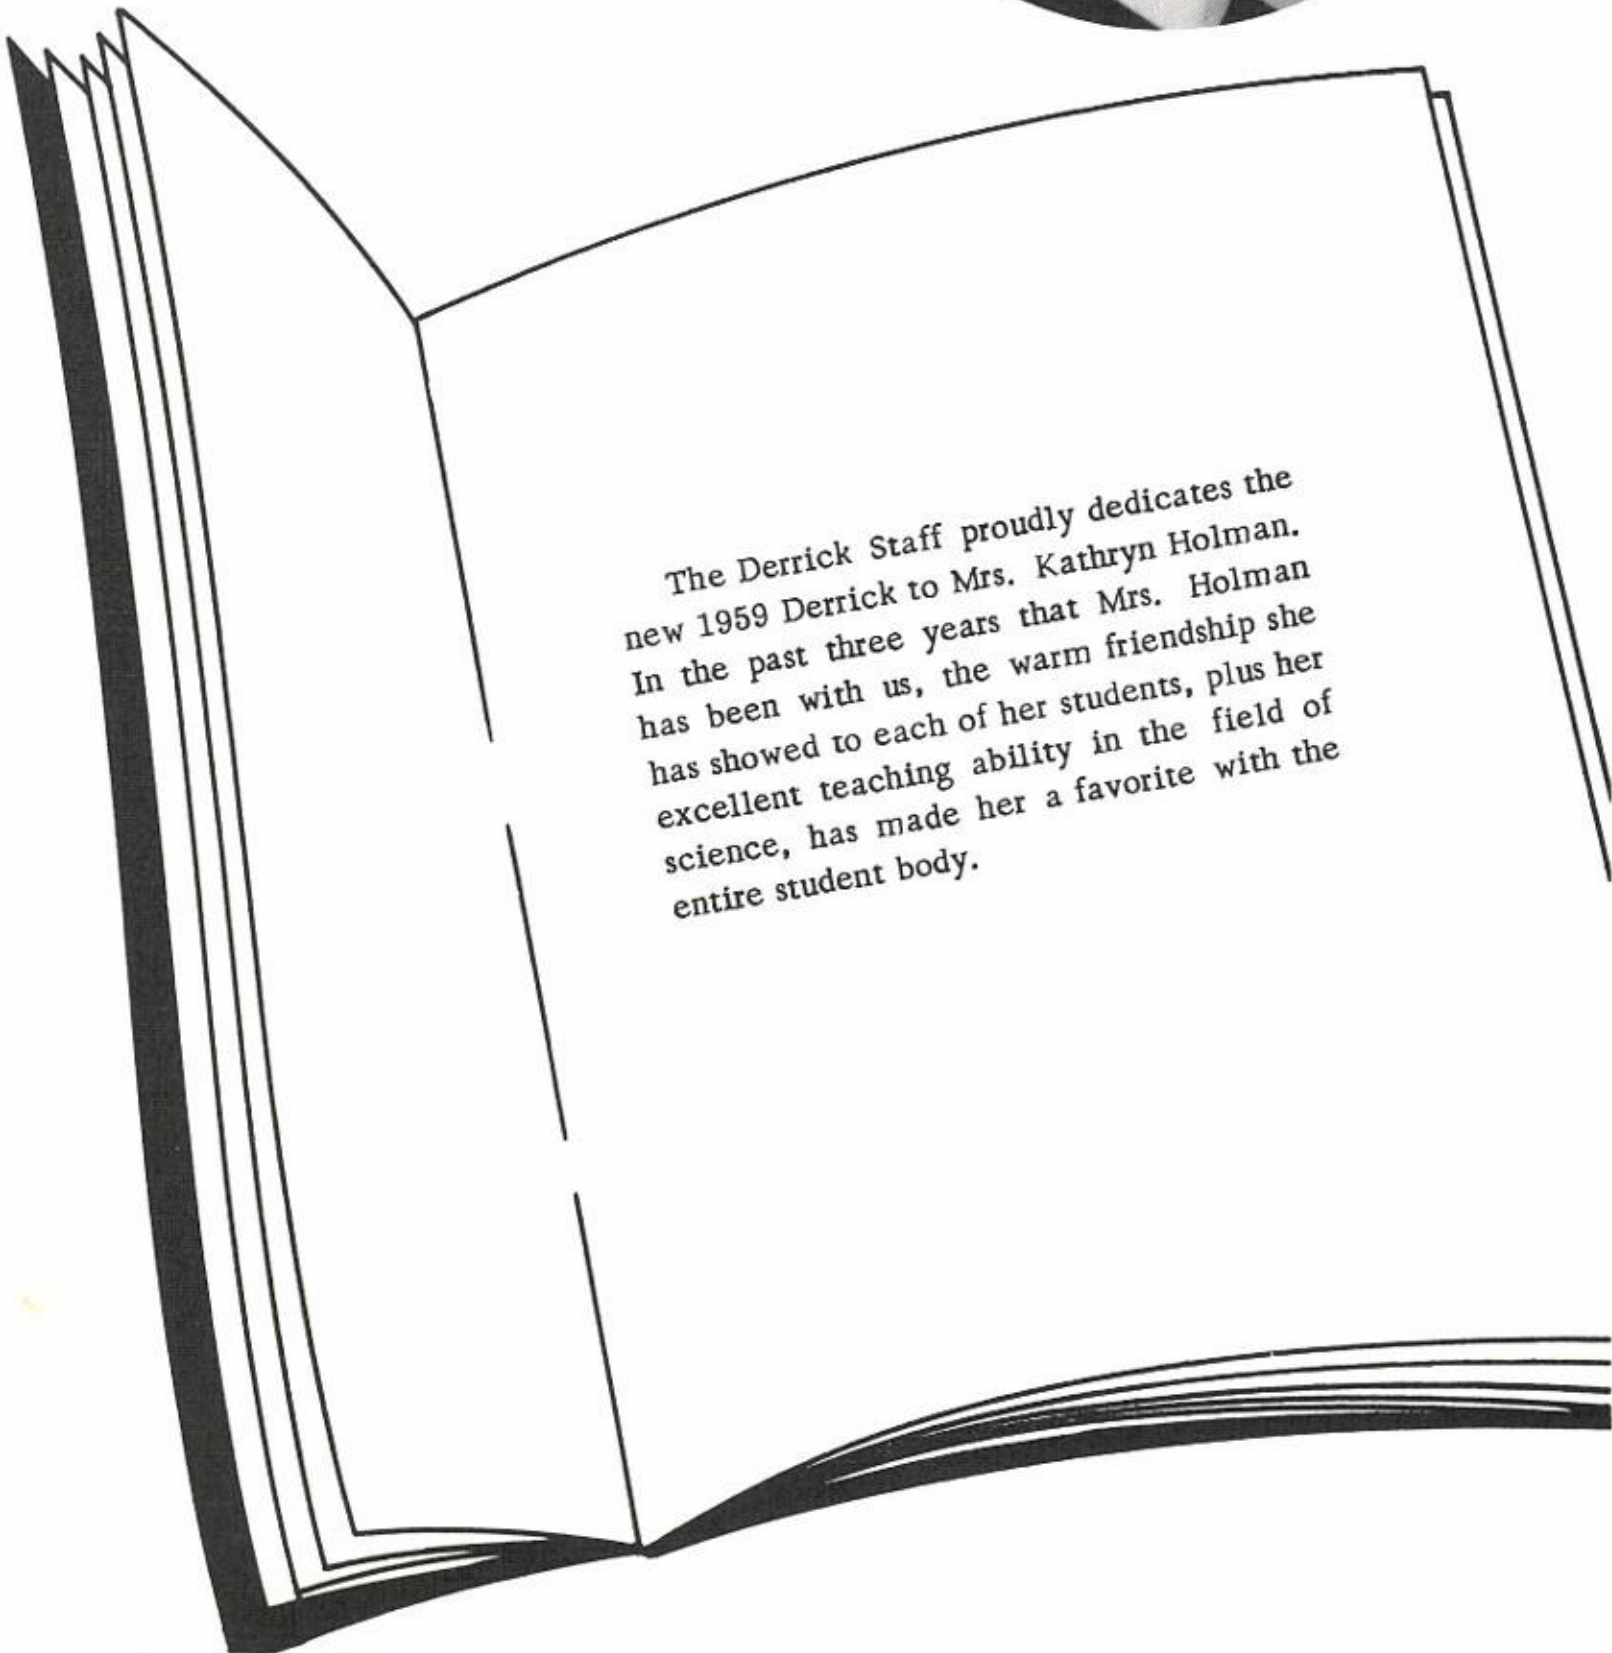

Though time will pass and we shall part,
this book will be an unbreakable link in
your chain of memories. And if, when
looking through these pages, you relive the
happy days of yesteryears for just a while,
our efforts will not have been in vain.

Thus, we present this book to you; may
your hearts be lighter and your lives be
happier for the memories it may bring.

THE DERRICK STAFF

Dedication

The Derrick Staff proudly dedicates the new 1959 Derrick to Mrs. Kathryn Holman. In the past three years that Mrs. Holman has been with us, the warm friendship she has showed to each of her students, plus her excellent teaching ability in the field of science, has made her a favorite with the entire student body.

ADMINISTRATION

Superintendent's Message

An annual serves as a record of past accomplishments. It is a book of memories. As such, it does not reflect the true temper of the nation and world of which the school is a part. Today, the world is troubled and the American democracy that we hold so dear is facing a severe test at home and abroad. Many of the values your school has tried to impart become increasingly more important.

As you take your place in the world, remember that the most vital component part of democracy is human relation - respecting the dignity and the integrity of the individual and the group.

May your future be so planned and managed that the important experiences of your life will bring you both honor and satisfaction.

Sincerely yours,

J C Evans

The piano accompaniment consists of chords in the right hand and single notes in the left hand. The lyrics "Hail, Burk High! Your" are written below the vocal line.

Your future is bright...ELECTRICALLY!

Your air conditioner, TV set and other appliances are just the beginning of a new electrical age.

Before long, your food will cook in seconds instead of hours. Electricity will close your windows at the first drop of rain. Lamps will cut on and off automatically to fit the lighting needs of your rooms. Television "screens" will hang on walls. An electric heat pump will use outside air to cool your home in summer, heat it in winter.

And there will be plenty of electricity to operate these electrical wonders of tomorrow. Business-managed electric companies, like Texas Electric Service Company, are constantly planning and building ahead to keep your electric service plentiful and dependable . . . ready when needed for progress and for better living!
